Rudolf SCHICKER, COORDINATOR PRIORITY AREA 10

GREETINGS to CESCO's publishing of CBC studies in the web

As Coordinator of Priority Area 10 "Institutional Capacity and Cooperation" of the European Strategy for the Danube Region (EUSDR) I very much appreciate the important step towards improving Cross Border Cooperation (CBC) in the Danube Region. By publishing studies on CBC on its web-page Central European Service for Cross Border Initiatives (CESCI) gives access to these results of intensive research to a broader public.

Knowledge about studies and research work done on the subject of cross-border cooperation in the Danube Region will increase and deepen cooperation as such and help to improve understanding people living on the other side of the border.
